BRIEFING

Air pollution in Europe: 2024 reporting status under the National Emission Reduction Commitments Directive

This briefing describes progress made by the EU and its Member States towards emissions of the five main air pollutants regulated under the National Emission Reduction Commitments Directive. It assesses Member State performance against emission commitments for 2020-2029, as well as progress towards meeting more ambitious commitments that will apply from 2030 onwards. It also highlights trends for a broad range of air pollutants and their sources in Europe. The briefing is based on the latest data available.
